The Great Barrier Reef

Description

The Great Barrier Reef is a coral reef system located off the coast of Queensland, Australia. It is over 2300 kilometers in length and is the world's largest coral reef system. The reef is a popular destination for tourists due to its abundance of marine life and clear waters. In fact, it is estimated to house 1,500 different species of fish and 400 of both hard and soft coral species.
